To: Honorable Chairwoman Rebeca Sosa

From: Carlos A. Gimenez
Mayor 

Subject: Historic Preservation Ad Valorem Tax Exemption for
2421 San Domingo Street, Coral Gables, FL

Recommendation

It is recommended that pursuant to the provisions of Florida Statute Section 196.1997 and 196.1998 and Miami-Dade County Ordinance 16A-18 that the Board of County Commissioners (Board) approve the resolution for the Ad Valorem Tax Exemption for the property located at 2421 San Domingo Street, Coral Gables, FL.

Scope

This property is located within Commission District 6 – Chairwoman Rebeca Sosa. However, the impact of the agenda item is countywide and does not have a separate impact upon one or more commission districts.

Fiscal Impact/Funding Source

The portions of taxes that will be exempted if this application is granted are estimated at \$1,725. (Calculations are provided by the Property Appraiser; see the attached "Revenue Implications Report").

The approval of this application does not provide a complete exemption of all taxes on the property. The exempted portion is based on how much the property value increased, due to the renovation. For the ten-year abatement period, the County will continue to collect taxes on the property using property values previous to the renovation. Following the ten-year abatement period, the County will collect taxes on the full value of the property, including the renovation.

Track Record/Monitor

Mark R. Woerner, Assistant Director of Planning in the Department of Regulatory and Economic Resources will be responsible for implementation. County Historic Preservation staff or the Preservation Officer of the municipality in which the property is located will conduct periodic reviews of the property to insure that the improvements are maintained for the duration of the tax abatement.

Background

Enabling Legislation: In 1993, the State legislature approved Tax Exemptions for historic properties and enabled local governments the option to provide this property tax exemption for eligible historic properties.

The purpose of this legislation is to encourage the preservation of historic buildings by offering an economic incentive to those property owners who take on the responsibility of restoring and maintaining a designated historic structure. The exemption is not for the entire assessed value of the property. The tax exemptions are calculated from what the value of the renovations to the historic property were, and only apply to the countywide portion of the property's tax bill. An exemption may also be granted on the municipal portion of the property tax bill if approved by the relevant municipality.

All applicants must meet certain criteria as set forth by the Florida Department of State, Division of Historical Resources in order for a tax exemption to be allowed, including:

- Certification that the property has been designated historic (by the applicable preservation board)
- Certification that the property has received approval for the improvements (by the applicable preservation board)
- A determination that the planned improvements are consistent with the Secretary of the Interior's Standards for Rehabilitation.

Overview of the Application Process: Part I of the application must be submitted prior to construction. When the project is completed, the owner/applicant must submit Part II of the application, and a signed covenant. The local preservation officer must also review and authorize the work. The item can then be placed on the County's Historic Preservation Board agenda. The Property Appraiser prepares the Revenue Implications Report when they consider the project substantially complete, and provides this report to the County Historic Preservation office. The tax exemption is calculated using the millage rate for the year in which the project was completed.

Duration: The tax exemption takes effect on January 1 following substantial completion of the improvement and extends for a ten-year period. Failure by the owners to adhere to these standards would result in revocation of the exemption.

Project Details: The residence located at 2421 San Domingo Street was permitted for construction on October 2, 1925. It remained the only structure on the street until 1936. The two-story home (and its auxiliary structure) was designed in the Mediterranean Revival architectural style, typical of the early development in Coral Gables. The home was designed, built and owned by Wilbert Harborn.

A large portion of the rehabilitation cost was due to the structural stabilization of the building, which was literally experiencing a failure of the foundation in some areas. New structural beams and columns were installed, and a new floor joist system was introduced. Entirely new plumbing, electrical, and air-conditioning systems were installed as well. The entire front entry was reconfigured to replicate what had been built originally (which had been altered at a later date.) New impact casement windows that replicated the original configurations replaced non-historic awning windows, and new doors, including the garage doors, were replaced with impact-rated products.

A 1965 addition was removed, and a more compatible one-story addition was added onto the south side of the property. A new roof was put on the building, and accent tiles that were saved from the original house were utilized in the new loggia.

The total amount spent by the homeowner on the renovation was \$1,000,000.00. The Property Appraiser's office determined that the change in the property's value, because of the improvements, was an increase of \$358,903. The portion of taxes on that increased value that will be exempted is \$1,725, if this application is approved.
